IMPORTANT INFORMATION

The 2018 DIV form has added a new box 5 - Section 1099A dividends; this box shows dividends eligible for the 20% qualified business income deduction under section 199A. See instructions 1040 or visit www.irs.gov for more information.

Due to new IRS regulations, the cost basis along with the proceeds will be reported to the IRS for any non-complex bonds and options purchased after 01/01/2014 and complex debt after 01/01/2017. The cost basis for bonds and options purchased before 2014 will not be reported to the IRS. Amortization of bond premium and accretion of bond discount will be reported to the IRS on the 1099 form.

Realized gain/loss information is included on the 1099-B proceeds section of the 1099 to meet cost basis reporting regulations. Box 3 is marked covered (basis not reported to the IRS) though all realized gain/loss information is required to be reported on the tax return. If the reportable status for an item is unclear, we will process it as a covered transaction for realized gain/loss to avoid any non-compliant omission to cost basis should the IRS deem it necessary. Contact your financial advisor with questions about the cost basis displayed on the 1099-B, or if cost basis is missing, visit www.irs.gov.

Interest and original issue discount from Real Estate Mortgage Investment conduits (REMIC) and Mortgage Backed Security (MBS) is now reported on a consolidated 1099 to be issued March 15, 2019 as a combined document with the consolidated 1099.

If you held Widely Held Fixed Income Trusts, Mortgage Pools, Royalty Trusts, Mutual Funds, Real Estate Investment Trusts, Regulated Investment Companies, Unit Investment Trusts, Collateralized Mortgage Obligations, Real Estate Mortgage Investment Conduits, Mortgage Pools or other securities that report revised tax information up to March 15, 2019, you may wish to postpone filing a tax return until this information is received. Holders of these securities may receive an amended an amended 1099 with gross up of income and expense reporting up to March 15, 2019. However, please contact a tax advisor regarding when to file a tax. Please visit www.irs.gov for more information.

This information may not agree with your December statement due to corrections made after year end, and/or the re-allocation and expense gross up of income for mutual funds, Real Estate Investment Trusts, Regulated Investment Companies, Unit Investment Trusts, Collateralized Mortgage Obligations, Real Estate Mortgage Investment Conduits, Widely Held Fixed Income Trusts, Mortgage Pools and other securities.

State specific Money Market Fund's, Mutual Fund's, and Regulated Investment Companies' (RIC) tax information is available from a fund's website.

Due to new IRS regulations, Sub Chapter S Corporations may receive a reportable 1099 to report any covered sales on a reportable 1099B. This will be in addition to a non-reportable document for all other activities.

Proceeds from Broker and Barter Exchange Transactions

2018 1099-B* OMB No. 1545-0715

02/09/2019

Sales transactions are organized into sections according to term (long, short or undetermined) and covered status (covered or noncovered). For tax lots whose term is undetermined, use your historical documents to establish the cost basis and date of purchase.

Several columns include both an amount and a qualifying notation to its right. Where proceeds are the result of an option exercise or assignment, there is indication of whether the amount is N (net of option premium) or G (Gross). Accrued market discount and wash sale loss disallowed appear in the same column, identified by the letters D or W, respectively. Where you are not permitted to recognize a loss, an indication of X (change in control or capital structure) or Z (other corporate action) is used. The change in control condition is reported to the IRS for covered lots. Neither the disallowance of loss due to other corporate action nor the amount of gain or loss is reported to the IRS in any instance.

Some tax lots may have notations in the column of additional information because they require special treatment on your tax returns. Sales of securities such as Contingent Payment Debt Instruments (CPDI) are marked as "Ordinary" because gains and losses on these instruments generally do not qualify as short- or long-term capital transactions. Similarly, lots noted as "12- [X] Collectible" are handled distinctly under the tax code. These conditions are reported to the IRS. You may wish to consult with your tax advisor, the IRS or your state tax authority regarding the proper treatment for these scenarios.

Closing of written options is presented in a distinct manner in accordance with IRS regulation. For these transactions the Cost or other basis (column 1e) is always presented as \$0.00 and the Proceeds (column 1d) is the net of the amount received when the option was written and the cost to close the position.

Also shown are the fair market values of any taxable stock dividends or noncash liquidation distributions.

Federal, state and foreign tax withheld and investment expenses are presented as negative amounts but do not net against the reportable income totals. Detail for Interest Income

This section of your tax information statement contains the payment level detail of taxable interest and associated bond premium. Market discount will be shown here only if you have elected to recognize it currently rather than at the time of sale or maturity. Bond premium and market discount for covered tax lots are totaled on Form 1099-INT and reported to the IRS. For noncovered tax lots, they are totaled and presented beneath the 1099-INT for informational purposes and are not reported to the IRS.

To provide a complete picture of activity for each investment, we also include here nonreportable transactions such as accrued interest paid on purchases and payment or receipt of nonqualified interest. Other amounts, such as federal, state and foreign tax withheld and investment expenses are shown as negative amounts but do not net against the reportable income totals.

Some amounts shown as Agency interest may be exempt from state tax. You may wish to consult with your tax advisor, the IRS or your state tax authority regarding the proper treatment.

Other Receipts and Reconciliations

2018

02/09/2019

This section of your tax information statement contains the detail of the year-to-year adjustments between cash distributions and reportable income for Unit Investment Trusts, reflecting the fact that income is recognized at the time it is received by the trust, rather than when a distribution is made.

Also shown are distributions whose tax impact will be defined by other documentation. In the case of partnership distributions, you will receive Schedule K-1 (Form 1065) directly from the partnership(s). For deferred income, the Form 1099-DIV issued in the following year will characterize the amounts received.

For your protection, this form may show only the last four digits of your TIN (social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN)). However, the issuer has reported your complete TIN to the IRS.

Account number. May show an account or other unique number the payer assigned to distinguish your account.

Line 1b. Shows the portion of the amount on line 1a that may be eligible for reduced capital gains rates. See the Form 1040 instructions for how to determine this amount and where to report.

The amount shown may be dividends a corporation paid directly to you as a participant (or beneficiary of a participant) in an employee stock ownership plan (ESOP). Report it as a dividend on your Form 1040 but treat it as a plan distribution, not as investment income, for any other purpose.

But, if no amount is shown on lines 2c-2d and your only capital gains and losses are capital gain distributions, you may be able to report the amounts shown on line 2a on your Form 1040 rather than Schedule D. You must reduce your cost (or other basis) by this amount for figuring gain or loss when you sell your stock. But if you get back all your cost (or other basis), report future distributions as capital gains. See Pub. 560.

Instructions for Recipient

1099-INT Instructions for Recipient

The information provided may be different for covered and noncovered securities. For a description of covered securities, see the Instructions for Form 8949. For a taxable covered security acquired at a premium, unless you notified the payer in writing in accordance with Regulations section 1.6045-1(n)(5) that you did not want to amortize the premium under section 171, or for a tax-exempt covered security acquired at a premium, your payer generally must report either (1) a net amount of interest that reflects the offset of the amount of interest paid to you by the amount of premium amortization allocable to the payment(s), or (2) a gross amount for both the interest paid to you and the premium amortization allocable to the payment(s). If you did notify your payer that you did not want to amortize the premium on a taxable covered security, then your payer will only report the gross amount of interest paid to you. For a noncovered security acquired at a premium, your payer is only required to report the gross amount of interest paid to you.

Line 1. Shows taxable interest paid to you during the calendar year by the payer. This does not include interest shown on line 3. May also show the total amount of the credits from clean renewable energy bonds, new clean renewable energy bonds, qualified energy conservation bonds, qualified zone academy bonds, qualified school construction bonds, and build America bonds that must be included in your interest income. These amounts were treated as paid to you during 2018 on the credit allowance dates (March 15, June 15, September 15, and December 15). For more information, see Form 8912. See the instructions above for a taxable covered security acquired at a premium.

Line 2. Shows interest or principal forfeited because of early withdrawal of time savings. You may deduct this amount to figure your adjusted gross income on your income tax return. See the Instructions for Form 1040 to see where to take the deduction.

Line 3. Shows interest on U.S. Savings Bonds, Treasury bills, Treasury bonds, and Treasury notes. This may or may not all be taxable. See Pub. 550. This interest is exempt from state and local income taxes. This interest is not included on line 1. See the instructions above for a taxable covered security acquired at a premium.

Line 4. Shows backup withholding. Generally, a payer must backup withhold if you did not furnish your taxpayer identification number (TIN) or you did not furnish the correct TIN to the payer. See Form W-9. Include this amount on your income tax return as tax withheld.

Line 5. Any amount shown is your share of investment expenses of a single-class REMIC. If you file Form 1040, you may deduct these expenses on the "Other expenses" line of Schedule A (Form 1040) subject to the 2% limit. This amount is included on line 1.

Line 6. Shows foreign tax paid. You may be able to claim this tax as a deduction or a credit on your Form 1040. See your Form 1040 instructions.

Line 7. Shows the country or U.S. possession to which the foreign tax was paid.

Line 8. Shows tax-exempt interest paid to you during the calendar year by the payer. Report this amount on line 8b of Form 1040 or Form 1040A. This amount may be subject to backup withholding. See line 4. See the instructions above for a tax-exempt covered security acquired at a premium.

Line 9. Shows tax-exempt interest subject to the alternative minimum tax. This amount is included on line 8. See the Instructions for Form 6251. See the instructions above for a tax-exempt covered security acquired at a premium.

Line 10. For a taxable or tax-exempt covered security, if you made an election under section 1278(b) to include market discount in income as it accrues and you notified your payer of the election in writing in accordance with Regulations section 1.6045-1(n)(5), shows the market discount that accrued on the debt instrument during the year while held by you, unless it was reported on Form 1099-OID. For a taxable or tax-exempt covered security acquired on or after January 1, 2015, accrued market discount will be calculated on a constant yield basis unless you notified your payer in writing in accordance with Regulations section 1.6045-1(n)(5) that you did not want to make a constant yield election for market discount under section 1278(b). Report the accrued market discount on your income tax return as directed in the instructions for Form 1040 or 1040A. Market discount on a tax-exempt security is includible in taxable income as interest income.

Line 11. For a taxable covered security (other than a U.S. Treasury obligation), shows the amount of premium amortization allocable to the interest payment(s), unless you notified the payer in writing in accordance with Regulations section 1.6045-1(n)(5) that you did not want to amortize bond premium under section 171. If an amount is reported on this line, see the Instructions for Form 1040 (Schedule B) to determine the net amount of interest includible in income on Form 1040 with respect to the security. If an amount is not reported on this line for a taxable covered security acquired at a premium and the payer is reporting premium amortization, the payer has reported a net amount of interest on line 1. If the amount in line 11 is greater than the amount of interest paid on the covered security, see Regulations section 1.171-2(a)(4).

Line 12. For a U.S. Treasury obligation that is a covered security, shows the amount of premium amortization allocable to the interest payment(s), unless you notified the payer in writing in accordance with Regulations section 1.6045-1(n)(5) that you did not want to amortize bond premium under section 171. If an amount is reported on this line, see the

Instructions for Form 1040 (Schedule B) to determine the net amount of interest includible in income on Form 1040 with respect to the U.S. Treasury obligation. If an amount is not reported on this line for a U.S. Treasury obligation that is a covered security acquired at a premium and the payer is reporting premium amortization, the payer has reported a net amount of interest on line 3. If the amount on line 12 is greater than the amount of interest paid on the U.S. Treasury obligation, see Regulations section 1.171-2(a)(4).

Line 13. For a tax-exempt covered security, shows the amount of premium amortization allocable to the interest payment(s). If an amount is reported on this line, see Pub. 550 to determine the net amount of tax-exempt interest reportable on line 8b of Form 1040 or Form 1040A. If an amount is not reported on this line for a tax-exempt covered security acquired at a premium, the payer has reported a net amount of interest on line 8 or 9, whichever is applicable, if the amount on line 13 is greater than the amount of interest paid on the tax-exempt covered security, the excess is a nondeductible loss. See Regulations section 1.171-2(a)(4)(ii).

Line 14. Shows CUSIP number(s) for tax-exempt bond(s) on which tax-exempt interest was paid, or tax credit bond(s) on which taxable interest was paid or tax credit was allowed, to you during the calendar year. If blank, no CUSIP number was issued for the bond(s).
