

February 27, 2018

To whom it may concern:

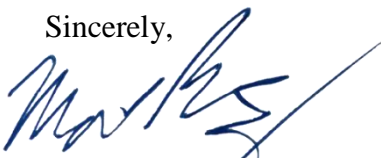

My name is Matthew Ramsey and I am an Assistant Professor in the Department of Cell and Molecular Biology at the University of Rhode Island. It is my pleasure to recommend Caroline Sweeney for a position at your hospital. Caroline was a student in my CMB201 – ‘Medical Microbiology’ course in the fall of 2017.

Caroline finished in the top 1% of my course (of 288 students) with a perfect final grade. In a class this large, it’s somewhat difficult for me to get to know many of the students. Despite this, Caroline has established herself as a willing and eager participant in class, attending all lectures that I can recall as well as my voluntary exam review sessions. Caroline received perfect (100%) grade in the laboratory section of this course as well. In the labs Caroline has received training possibly relevant to bench-work in your facilities including basic dilutions, microbial isolation, enumeration and culturing as well as aseptic techniques.

Caroline has maintained her grades alongside the time commitments of being involved in her Pharmacy Professional organization (SSHP) as well as serving as a TA for Economics here at URI. Her dedication to this and ability to maintain high grades in her coursework speaks well of her work ethic and self-discipline.

After meeting with Caroline in class and prior to writing this letter I have been impressed with her composure and communication skills in addition to her evident academic achievements. Whatever you decide, I am sure that Caroline will do quite well and I look forward to seeing her progress beyond her time at our University. I recommend Caroline without reservation and I hope you agree.

Sincerely,

Matthew Ramsey
